There is no group company under the same management as explained in the SEBI Circular No. RPM Circular No. 1 (2002-03).

iv) Details Of Services Offered:**a) Discretionary Portfolio Management -**

The portfolio account of the client is managed at the full discretion and liberty of the Portfolio Manager. Thus the choice and timing of investment rest solely with the Portfolio Manager. The portfolio managers' decision (taken in good faith) in deployment of the Clients' account is absolute and final and cannot be called in question or be open to review at any time during the tenure of the agreement or any time thereafter except on the ground of mala fide, fraud, conflict of interest or gross negligence.

b) Non-discretionary Portfolio Management -

In the case of non-discretionary services, the investment objectives and the securities to be invested would be entirely decided by the Client. The same could vary widely from client to client. However, the execution would be carried out only after getting the approval from the Client.

Under the Non-Discretionary category, the investment decisions of the Portfolio Manager are guided by the instructions received from the client under an agreement executed between the portfolio manager and the client. The deployment of funds is the sole discretion of the client and is to be exercised by the portfolio manager in a manner strictly complies with the client's instruction. The decision of the client in the deployment of funds and the handling of his / her / its portfolio is absolute and final. The role of the Portfolio Manager apart from adhering to investments or divestments upon instructions of the client is restricted to providing market intelligence, research reports, trading strategies, trade statistics and such other material which will enable the client to take appropriate investment decisions. For the purpose of acting on the client's instructions, the Portfolio Manager shall take instructions in writing or through any other media mutually agreed such as email, fax, telephone or suitable and secured message and may include managing, renewing and reshuffling the portfolio, buying and selling of securities, keeping safe custody of the securities and monitoring book closures, dividend, bonus, rights, etc. so that all benefits accrue to the client's portfolio, for an agreed fee structure and for a definite described period, entirely at the client's risk.

c) Advisory Services –

The Portfolio client is given purely advisory services as stipulated under SEBI PMS Regulations and in accordance with the requirement of the client. Portfolio Manager gives advice to the client regarding investment/disinvestment in Securities. However, discretion lies with the client whether to act upon it or to ignore the advice. The Portfolio Manager will provide advisory portfolio management services, in terms of the SEBI (Portfolio Manager) Regulations, 2020 and SEBI (Investment Advisers) Regulations, 2013, which shall be in the nature of Investment advice and may include advice relating to investing in, purchasing, selling or otherwise dealing in securities or investment products, and advice on investment portfolio containing securities or investment products, whether written, oral or through any other means of communication for the benefit of the client. Investment advice shall be for an agreed fee structure and for a period agreed and entirely at the client's risk. The Portfolio Manager shall act in a fiduciary capacity towards its client.

4) Penalties, pending litigation or proceedings, findings of inspection or investigations for which action may have been taken or initiated by any regulatory authority:

Sr. No.	Particulars	Remarks
1	All cases of penalties imposed by the Board or the directions issued by the Board under the Act or Rules or Regulations made thereunder:	None
2	The nature of the penalty/direction:	None
3	Any pending material litigation / legal proceedings against the portfolio manager / key personnel with separate disclosure regarding pending criminal cases, if any:	None
4	Any deficiency in the systems and operations of the portfolio manager observed by the Board or any regulatory agency:	None
5	Any inquiry/adjudication proceedings initiated by the Board against the portfolio manager or its directors, principal officer or employee or any person directly or indirectly connected with the portfolio manager or its directors, principal officer or employee under the Act or Rules or Regulations made thereunder:	None
6	Penalties imposed for any economic offense and/or violation of any securities laws	None

5) Services Offered:**A. Investment objective –**

The funds of the Clients shall be invested in such capital and money market instruments, including securities as defined under the Securities Contract (Regulation) Act, 1956, and shall include any securities, derivatives and other instruments which are tradable on any of Exchanges as well as such units of Unit Trust of India and / or other mutual funds, government securities, debt instruments, negotiable instruments, certificates of deposit, participation certificates, commercial paper, securitized debt instruments, investments in company deposits, bank deposits, treasury bills and such other eligible modes of investment and/or forms of deployment within the meaning of the Regulation issued by SEBI as amended from time to time.

The Portfolio Manager may, however, enter into futures contracts, options in securities, options on indices and other similar types of investment, which may result in the Client having to provide initial margin payments and which would be deemed. The Portfolio Manager shall observe a high standard of integrity and fair dealing in all transactions involving the Client's Account. The investment in the securities mentioned in the above point will be in accordance

with the objectives as given in the agreement and also any of the product/plan categories accepted by the client.

The objective of the Derivative Exposure: The objective to use derivatives is purely to protect the portfolio in case of a severe market correction. We seek to use derivatives purely to protect client's portfolio in case of sharp drawdowns of the aggregate market. The Derivatives will only be used for hedging and/or portfolio rebalancing.

B. Types of Securities -

The portfolio manager/fund manager shall invest in all such types of securities as defined in above (Please refer to definitions) and in all such securities as permissible from time to time.

Type of Derivatives to be used -

Only options on the Nifty/Sensex will be used for the purpose (i.e. broad-based market indices) of hedging and portfolio rebalancing. The position will always be as a buyer/holder of the option.

Exposure: The maximum exposure in derivatives will not exceed the limit specified in the agreement in absolute term and in percentage terms.

C. Minimum Investment Amount-

The Portfolio Manager will not accept an initial corpus of less than Rs. 50.00 lacs or such minimum amount as specified by SEBI from time to time. The client may on one or more instances or on a continual basis, make further placements of funds/ securities under the services.

D. Investment Approaches:

(a) Valentis Rising Stars Opportunity Fund:

i. Investment Objective:

The objective of the fund is capital appreciation in the medium term to long term by investing in cherry-picked stocks mostly in the Mid and Small cap space. The emphasis is to invest in a diversified portfolio of companies having good corporate governance, sustainable growth prospects, emerging sectors and turn around stories. The portfolio will be adopting a proactive approach to recognize trends, themes, and triggers in a rapidly evolving macroeconomic scenario.

There would be 3 characteristics of this fund - (a) it will adopt a buy and hold strategy and trading will be minimal. (b) The fund will be diversified in terms of sectors as well as stocks to minimize risk to client portfolio from excessive concentration (c) while liquidity is important, the fund will be willing to make investments in illiquid stocks if valuations and growth prospects appear attractive. Hence, the fund is focused on long term investors with a 3-5 year time horizon.

ii. Description of types of securities e.g. equity or debt, listed or unlisted, convertible instruments, etc:

The primary objective of this fund is to invest entirely in equities. However, considering the view on the equity markets, the fund may invest in one or more debt and money market instruments.

iii. Basis of selection of such types of securities as part of the investment approach:

Our investment philosophy revolves around using an overlay of the macro-environment to drill down themes that will perform well in the future. We use these themes to look for under-valued stock opportunities.

Our valuations for a company combine both qualitative and quantitative factors to enable us to determine the risk: reward potential in stocks. We pay strong emphasis to the management team as well as the sustainable advantage of the company within the business environment they operate in.

This is combined with the assessment of the future earnings and cash flows of the company, its balance sheet strength as well as valuation parameters like price/earnings ratio, price to book value, EV/EBIDTA etc. to decide on the return potential of the stock.

iv. Allocation of portfolio across types of securities:

The primary objective of this fund is to invest entirely in equities. However, considering the view on the equity markets, the fund may invest in one or more debt and money market instruments.

**v. Appropriate benchmark to compare performance and basis for choice of benchmark:
NIFTY MIDCAP 100 / NIFTY SMALLCAP-100**

Given that the fund will primarily invest in small and mid-cap stocks, these appear the best benchmark indices.

vi. Indicative tenure or investment horizon:

The fund is focused on investors with a 3 to 5 year horizon given that small cap companies will time to mature and deliver on their growth plans take.

vii. Risks associated with the investment approach:

The fund is exposed to the normal risks associated with equity markets. However, given the small cap and mid cap investments there are 2 specific risks investors should be aware of. First, the earnings and growth profile of small and mid-cap companies are more volatile than the more established large cap companies. Hence, share prices are also more volatile relative to large cap companies. Secondly, given that small and mid-cap companies have less trading volume on the exchanges, they can be liquidity risks.

viii. Other Salient features, if any: None.

(b) Valentis Multicap Fund:

i. Investment Objective:

The fund aims to deliver returns over the long-term, by taking stakes in select listed Indian equities. The strategy is to seek an exceptional margin of safety, by focusing on mispriced situations or secular growth stories. The focus would be on investing in the best ideas than diversification. The endeavor would be to cherry pick blue-chips or undiscovered stocks-albeit with sound fundamentals. The fund would have an optimal and dynamic mix between large, mid and small cap companies.

There would be 3 characteristics of this fund –

- It will adopt a buy and hold strategy and trading will be minimal.
- The fund need not be diversified in terms of sectors as well as stocks and so may have a concentration risk though it will try to reduce concentration risk.
- While liquidity is important, the fund manager will be willing to make investments in illiquid stocks if valuations and growth prospects appear attractive. Hence, the fund is focused on long term investors.

ii. Description of types of securities e.g. equity or debt, listed or unlisted, convertible instruments, etc:

The primary objective of this fund is to invest entirely in equities. However, considering the view on the equity markets, the fund may invest in one or more debt and money market instruments.

iii. Basis of selection of such types of securities as part of the investment approach:

Our investment philosophy revolves around using an overlay of the macro-environment to drill down themes that will perform well in the future. We use these themes to look for under-valued stock opportunities.

Our valuations for a company combine both qualitative and quantitative factors to enable us to determine the risk: reward potential in stocks. We pay strong emphasis to the management team as well as the sustainable advantage of the company within the business environment they operate in. This is combined with the assessment of the future earnings and cash flows of the company, its balance sheet strength as well as valuation parameters like price/earnings ratio, price to book value, EV/EBIDTA etc. to decide on the return potential of the stock.

iv. Allocation of portfolio across types of securities:

The primary objective of this fund is to invest entirely in equities. However, considering the view on the equity markets, the fund may invest in one or more debt and money market instruments.

**v. Appropriate benchmark to compare performance and basis for choice of benchmark:
BSE-500**

Given that the scope of the fund is to have a mix of large, mid and small cap companies, a broad-based index like BSE500 is ideal.

vi. Indicative tenure or investment horizon:

Our investment style is to look at long term growth prospects of companies. Hence, the fund is suited for investors with a time horizon of at least 3 years.

vii. Risks associated with the investment approach:

The fund is exposed to the normal risks associated with equity markets. Given that the fund will also have exposure to mid and small cap companies, there could be volatility in fundamentals and stock prices especially in an economic downturn. Also, given that small and mid-cap companies have less trading volume on the exchanges, they can be liquidity risks to the extent of the fund exposure to these stocks.

viii. Other Salient features, if any: None.

(c) Valentis Debt Staggered Investment Fund:

i. Investment Objective:

The fund aims to invest the money in liquid or overnight funds/arbitrage funds till they are moved to another Valentis equity fund. A part of the money may also be invested in debt or gilt funds as well as retained in the bank account. These funds will be invested in some other Valentis equity fund over a period of time. We could also move some money from other Valentis equity funds to this fund in one or more tranches.

ii. Description of types of securities e.g. equity or debt, listed or unlisted, convertible instruments, etc:

The primary objective of this fund is to invest money in debt mutual funds mostly in liquid, liquid plus, overnight or arbitrage funds. Some part of the money may be invested in gilt or debt oriented funds as well as in bank balance.

iii. Basis of selection of such types of securities as part of the investment approach:

The funds will be invested either in bank accounts or in debt mutual funds including liquid/overnight/ arbitrage/gilt and other debt products. The primary focus would be on safety of the capital with an optimum return.

iv. Allocation of portfolio across types of securities:

The primary objective of this fund is to invest entirely in debt. This would include bank accounts, liquid funds, overnight funds, arbitrage funds, gilt funds and other debt funds.

**v. Appropriate benchmark to compare performance and basis for choice of benchmark:
Crisil Overnight Index**

Given that large part of the funds will be invested in liquid or overnight mutual funds, the Crisil Overnight Index is the most appropriate.

vi. Indicative tenure or investment horizon:

Given the liquid nature of investments, this product can be for short term as well as long term. The primary purpose is to invest the funds gradually in another Valentis equity oriented fund.

vii. Risks associated with the investment approach:

The risks are low and in the nature of normal interest rate movements or credit risks which affect all debt products.

viii. Other Salient features, if any: None.

E. Investment In Associates/Group Companies Of The Portfolio Manager:

Portfolio Manager will not invest in the equity shares, mutual funds, debt, deposits and other financial instruments, wherever applicable, of associate and group companies.

6) Risk Factors:

The Portfolio Manager is not responsible for the loss if any, incurred or suffered by the Client. The risk factors, as perceived by management, in respect of the portfolio management services offered are enlisted below:

- 1) Investments in securities are subject to market risks and include price fluctuation risks. There are no assurances or guarantees that the objectives of investments in securities will be achieved. These investments may not be suited to all categories of investors.
- 2) The value of the Portfolio may increase or decrease depending upon various market forces and factors affecting the capital markets such as de-listing of Securities, market closure, a relatively small number of scrips accounting for the large proportion of trading volume. Consequently, the Portfolio Manager provides no assurance of any guaranteed returns on the Portfolio.
- 3) The past performance of the Portfolio Manager is not indicative of future performance. Investors are not being offered any guaranteed or indicative returns.
- 4) The Client stands a risk of loss due to lack of adequate external systems for transferring, pricing, accounting, and safekeeping or record keeping of Securities. Transfer risk may arise due to the process involved in registering the shares, physical and Demat, in the Portfolio Manager's name, while price risk may arise on account of availability of share price from stock exchanges during the day and at the close of the day.
- 5) Investment decisions made by the Portfolio Manager may not always be profitable.
- 6) Investments made by the Portfolio Manager are subject to risks arising from the investment objective, investment strategy, and asset allocation.
- 7) The Portfolio Manager currently has no group companies and therefore there is no disclosure regarding conflict of interest related to services offered by group companies of the portfolio manager if any.
- 8) The Portfolio Manager and/or its Key Personnel Management may have its own investment in Listed Securities.
- 9) Not meeting the obligation to make Capital Contributions in terms of the Agreement may have implications as set out in the Agreement and may also impact the profitability of the Portfolio.
- 10) Equity and Equity Related Risks: Equity instruments carry both company specific and market risks and hence no assurance of returns can be made for these investments. While the Portfolio Manager shall take all reasonable steps to invest the Funds in a prudent manner in such instruments, such decisions may not always prove to be profitable or correct. Consequently, the Client shall assume any loss arising from such decisions made by the Portfolio Manager.
- 11) Macro-Economic risks: Overall economic slowdown, unanticipated corporate performance, environmental or political problems, changes to monetary or fiscal policies, changes in government

policies and regulations with regard to industry and exports may have a direct or indirect impact on the investments, and consequently the growth of the Portfolio.

- 12) Liquidity Risk: Liquidity of investments in equity and equity-related securities are often restricted by factors such as trading volumes, settlement periods and transfer procedures. If particular security does not have a market at the time of sale, then the Portfolio may have to bear an impact depending on its exposure to that particular security. While Securities that are listed on a stock exchange generally carry a lower liquidity risk, the ability to sell these investments is limited by overall trading volume on the stock exchange. Money market securities, while fairly liquid, lack a well developed secondary market, which may restrict the selling ability of such securities thereby resulting in a loss to the Portfolio until such securities are finally sold. Even upon termination of the Agreement, the Client may receive illiquid securities and finding a buyer for such Securities may be difficult. Further, different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in the settlement of transactions could result in temporary periods when the assets of the plan are un-invested and no return is earned thereon. The inability of the Portfolio Manager to make intended Securities purchases, due to settlement problems, could cause the Portfolio to miss certain investment opportunities.
- 13) Credit Risk: Debt securities are subject to the risk of the issuer's inability to meet the principal and interest payments on the obligations and may also be subject to the price volatility due to such factors as interest sensitivity, market perception, or the creditworthiness of the issuer and general market risk.
- 14) Interest Rate Risk: Is associated with movements in interest rates, which depend on various factors such as government borrowing, inflation, economic performance etc. The value of investments will appreciate/ depreciate if the interest rates fall/rise. Fixed income investments are subject to the risk of interest rate fluctuations, which may accordingly increase or decrease the rate of return thereon. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rate rises, the value of a portfolio of fixed income securities can be expected to decline.
- 15) Acts of State, or sovereign action, acts of nature, acts of war, civil disturbance are extraneous factors which can impact the Portfolio.
- 16) The Client stands the risk of total loss of value of an asset which forms part of the Portfolio or its recovery only through an expensive legal process due to various factors which by way of illustration include default or -performance of a third party, investee company's refusal to register a Security due to legal stay or otherwise, disputes raised by third parties.
- 17) Reinvestment Risk: This risk arises from the uncertainty in the rate at which cash flows from an investment may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.
- 18) Non-Diversification Risk: This risk arises when the Portfolio is not sufficiently diversified by investing in a wide variety of instruments. As mentioned above, the Portfolio Manager will attempt to maintain a diversified Portfolio in order to minimize this risk. However, the Valentis Top 5 Fund, by its nature, need not be diversified across sectors and stocks. In general, investing in this fund with concentrated exposure to a few stocks markets involves greater risk than investing in funds that have greater diversification.
- 19) Mutual Fund Risk: This risk arises from investing in units of Mutual funds. Risk factors inherent to equities and debt securities are also applicable to investments in mutual fund units. Further, scheme specific risk factors of each such underlying scheme, including the performance of their underlying stocks, derivatives instruments, stock lending, off-shore investments etc., will be applicable in the case of investments in mutual fund units. In addition, events like a change in fund manager of the scheme, take over, mergers and other changes in status and constitution of mutual funds, foreclosure of schemes or plans, change in government policies could affect the performance of the investment in mutual fund units.
- 20) The Portfolio Manager is neither responsible nor liable for any losses resulting from the Services.
- 21) Clients are not being offered any guarantee / assured returns.

- 22) The investments under the Portfolio may be concentrated towards equity/equity related instruments of companies primarily belonging to a single or few sectors and hence shall be affected by risks associated with those sectors.
- 23) The Clients may not be able to avail of securities transaction tax credit benefit and/or tax deduction at source (TDS) credit and this may result in an increased incidence of tax on the Clients. The Client may incur a higher rate of TDS/ Dividend Distribution Tax in case the investments are aggregated in the name of the Portfolio Management Portfolio/Product.
- 24) The arrangement of pooling of funds from various Clients and investing them in Securities could be construed as an 'Association of Persons' (AOP) in India under the provisions of the Income-tax Act, 1961 and taxed accordingly.
- 25) In case of investments in Mutual Fund units, the Client shall bear the recurring expenses of the Portfolio Management Services in addition to the expenses of the underlying mutual fund schemes. Hence, the Client may receive lower pre-tax returns compared to what he may receive had he invested directly in the underlying mutual fund schemes in the same proportions.
- 26) After accepting the corpus for management, the Portfolio Manager may not get an opportunity to deploy the same or there may be a delay in deployment. In such a situation, Clients may suffer opportunity loss.
- 27) Clients will not be permitted to withdraw the funds/Portfolio (unless in accordance with the terms agreed with the Client). In addition, they are not allowed to transfer any of the interests, rights or obligations with regard to the Portfolio except as may be provided in the Agreement and in the Regulations.
- 28) In case of early termination of the Agreement, where Client Securities are reverted to the Client, additional rights available while the Securities were held as part of the Portfolio that was negotiated by the Portfolio Manager with an investee company or its shareholders may no longer be available to the Client.
- 29) Changes in Applicable Law may impact the performance of the Portfolio.
- 30) Derivative transactions may be prone to problems of liquidity, mispricing, lack of or improper correlation with assets or such other reasons.
- 31) Derivative transactions require maintenance of margins, adequate control mechanisms forecasting ability, etc.
- 32) Risks pertaining to stock lending: In the case of stock lending, risks related to the defaults from counterparties with regard to securities lent and the corporate benefits accruing thereon, the inadequacy of the collateral and settlement risks.
- 33) Risk arising out of non-diversification, if any.
- 34) Specific Risk Disclosures associated with investments in Securitised Debt Instruments
 - a) Presently, the secondary market for such Securitised papers is not very liquid. This could limit the ability of the portfolio manager to resell them. Even if sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.
 - b) Securitised transactions are normally backed by a pool of receivables and credit enhancement as stipulated by the rating agency, which differs from issue to issue. Delinquencies and credit losses may cause depletion of the amount available under the Credit Enhancement and thereby the Investor Payouts may get affected if the amount available in the Credit Enhancement facility is not enough to cover the shortfall.
- 35) Specific risk and disclosures associated with investment in Structured Products like Index Linked Debentures
 - a) The Structured Products like Index linked - Non-Convertible Debentures may lead to a portion of the funds being deployed in the derivatives markets including in the purchase of options. These investments are high risk, high return as they may be highly leveraged. A small movement in the underlying index could have a large impact on their value and may result in a loss.
 - b) The Issuer of Equity index-linked debentures or any of its Agents, from time to time may have long or short positions or make markets including in indices, futures, and options. The value of these Debentures invested into on behalf of clients could be adversely impacted by a price movement in the above securities.

- c) The Structured Products, even after being listed, may not have a market at all;
- d) The returns on the Structured Products, including those linked to the may be lower than prevailing market interest rates or even zero or negative depending entirely on the movement in the underlying index and futures values as also that over the life of the Debentures. Consequently, the Debenture holder may receive no income/return at all or negative income/return on the Debentures or less income/return than the Debenture holder may have expected, or obtained by investing elsewhere or in similar investments.
- e) In the case of Equity Index-Linked Debentures, in the event of any discretions need to be exercised, in relation to method and manner of any of the computations including due to any disruptions in any of the financial markets or for any other reason, the calculations cannot be made as per the method and manner originally stipulated or referred to or implied, such alternative methods or approach may be at the discretion of the by the issuer and may include the use of estimates and approximations.
- f) At any time during the life of such Structured Products, the value of the Debentures may be substantially less than its redemption value. Further, the price of the Debentures may go down in case the credit rating of the Issuer goes down;

The return and/or maturity proceeds hereon may not be guaranteed or insured in any manner by The Issuer of Structured Products.

12) Taxation:

The following information is based on the law in force in India at the date hereof. This information is neither a complete disclosure of every material fact of the Income-tax Act, 1961 nor does constitute tax or legal advice. This information is based on the Portfolio Manager's understanding of the Tax Laws as of this date of Disclosure Document. Investors / clients should be aware that the fiscal rules/ tax laws may change and there can be no guarantee that the current tax position may continue indefinitely. In view of the individual nature of the tax consequences, each investor / client is advised to consult his/ her/its own professional tax advisor. The information/data herein alone is not sufficient and shouldn't be used for the development or implementation of an investment strategy and should not be construed as investment advice.

Income on Investment in Securities is subject to tax in the following manner:

a) Dividend

Dividends declared, distributed or paid on or after April 1, 2003, by domestic companies will be exempt in the hands of the shareholder recipient but a tax on distributed profits at applicable rates will be payable by the domestic company. However, as per Finance Act 2016, sanctioned by the parliament, from Assessment year 2017-18 in addition to DDT paid by the companies, tax at the

rate of 10% of gross amount of dividend will be payable by the recipients i.e. shareholders being individuals, HUFs and firms receiving dividend in excess of Rs. 10 lakh per annum.

- b) Interests on Investment are taxable except in certain cases where it is exempted from tax under Income Tax Act 1961.
- c) In case the securities are sold within one year (for listed securities except for units other than units of equity oriented mutual funds) or within two years (for unlisted securities) from the date of purchase, the resultant gains or losses are termed as short term capital gains or losses. Short term gains arising out of transfer of equity shares if the securities are sold on a recognized stock exchange in India and on which securities transaction tax has been paid are taxed at a concessional rate of 15% (as increased by surcharge plus education cess), in other cases they would be taxed at the slab rate applicable to the respective PMS client type.

In case the securities are sold after one year (for listed securities) or two years (for unlisted securities) and three years for units other than units of equity oriented mutual funds from the date of purchase, the resultant gains or losses are termed as long term capital gains or losses and the gain is arising out of transfer of equity shares which are sold on a recognized stock exchange in India and on which securities transaction tax has been paid would be taxed at 10% (as increased by surcharge plus education cess) in case of listed securities and 20% (as increased by surcharge plus education cess) in case of unlisted securities and units other than units of equity oriented mutual funds.

From A.Y. 2019-20, Long Term capital gain (where STT is paid) in excess of Rs. 1 Lakh will be chargeable at the rate of 10% and on the balance amount of the total income, the tax will be computed as if it were the total income of the assesses.

Note: "Listed Securities" as defined under the explanation to section 112(1) of Income Tax Act, means the securities as defined in clause 2(h) of Securities Contract (Regulations) Act, 1956 and listed on any recognized stock exchange in India.

"Unlisted Securities" means securities other than listed securities.

"Units" shall have the meaning assigned to it in clause (b) of explanation to section 115AB of Income Tax Act, 1961.

The following are the tax provisions presently applicable to clients investing in the Portfolio Management Products under the Income Tax Act, 1961.

Tax on Long Term Capital Gain:

If the capital asset, which is transferred, is equity share or units of equity oriented mutual funds and the transaction is subject to Securities Transaction Tax the Long Term Capital Gain in excess of Rs. 1 Lakh is chargeable to tax @ 10%. In other cases, the tax will be calculated as follows:

Capital Asset	If it is not subject to Securities Transaction Tax		
	Long Term		Short Term
	Without Indexation	With Indexation	
1. Debenture Listed	10 %	Not Applicable	Normal
2. Debenture Non-Listed	20 %	Not Applicable	Normal
3. Government Securities	10 %	20 %	Normal
4. Bonds Listed	10%	Not Applicable	Normal
5. Bonds Non Listed	20%	Not Applicable	Normal

TDS

If any tax is required to be withheld on account of any future legislation, the portfolio manager shall be obliged to act in accordance with the regulatory requirements in this regard. Interest would be subject to tax as per prevailing provisions of the Income Tax Act, 1961.

Advance Tax Obligations

It shall be the client's responsibility to meet the advance tax obligations payable on the due dates as per the Income Tax Act, 1961.

Provisions of Income Tax Act 1961, undergoes change frequently and is also based on the status of the client, thus the client is advised to consult his/her tax consultant for appropriate advice on the tax treatment of income indicated herein.

The fees charged to the client for PMS come under the ambit of "fees for technical services" under Section 194J of the Income Tax Act, 1961 ("the Act"). As the section calls for withholding tax, the client is required to withhold tax @ 10 % excluding GST, on the fees that the client pays to the Portfolio Manager if he/she falls under the following two categories:

a) An Individual / HUF whose total sales / gross receipt or turnover from business or profession carried on by him exceed the monetary limit specified under clause (a) or clause (b) of Sec. 44AB during the previous year immediately preceding the financial year.

In respect to the above TDS provision please note that in the Act No 23 of Finance Act, 2019 a new section i.e 194M has been inserted with effect from 01.09.2019 which specifies that:

Any Person being individual or a Hindu undivided family other those required to deduct income tax as per the provision of section 194J mentioned in (a) above shall at the time of credit of such sum or at the time of payment of such sum in cash or by issue of cheque or draft or by any other mode whichever is earlier, deduct an amount equal to five percent of such sum as income tax thereon if aggregate of sum, credited or paid to a resident during the financial year exceeds fifty lakh rupees.

b) Corporate/ Partnership Firms / LLP

This implies, the Client (as mentioned in point 'a' and 'b' above) while making payment of the fees would deduct tax at Source. The taxes payable on any transactions entered into or undertaken by the Portfolio Manager on behalf of the client, whether by way of deduction withholding, payment or other, shall be fully borne by the client. Payment of the tax shall be the personal responsibility and liability of the client. In case the client deducts and pay the withholding tax, the client shall provide Tax Deduction Certificate in Form No. 16A as prescribed under the Income Tax Rules, 1962 to the Portfolio Manager within 30 days from the date of filing return or due date of filing TDS Return for the quarter whichever is earlier. The Portfolio Manager is not by law, contract or otherwise required to discharge any obligation on behalf of the client to pay any taxes payable by the clients.

13) Accounting Policies:

1. Basis of accounting

(a) Books and Records for each product is separately maintained in the Back office software in the name of the client to account for the assets and any additions, income, receipts, and disbursements in connection therewith, as provided by the SEBI (Portfolio Management) Regulations, 2020, and SEBI (Investment Advisers) Regulations, 2013 as amended from time to time.

- (b) Accounting under the respective portfolios is done in accordance with Generally Accepted Accounting Principles except with Point (a) of Income/Expenses.
- (c) Transactions for purchase and sale of investments are recognized as of the trade date. In determining the holding cost of investments and the gain or loss on sale of investment, the first-in-first-out method is followed. The same is done at the product level. The cost of the investments acquired or purchased would include brokerage, stamp charges, and any charges customarily included in the broker's contract note or levied by any statute except STT (Securities Transaction Tax). Securities Transaction Tax incurred on buying and selling of securities is charged to revenue account.
- (d) Realized Gains/Losses are calculated by applying the First in/ First Out method.
- (e) Where eligible securities have been received from the client towards corpus, the closing market value of the previous day of activation of account/receipt of securities (in case of the additional corpus) is considered as a capital contribution and deemed to be the cost of investments for the purpose of tracking performance.

2. **Income/expenses**

- (a) All investment income and Expenses are accounted on accrual basis except Custodian, Fund Accounting & Depository charges which are on the actual basis for the last month of the financial year.
- (b) The dividend is accrued on the Ex-date of the securities and the same is reflected in the clients' books on the ex-date.
- (c) Similarly, bonus shares are accrued on the ex-date of the securities and the same are reflected in the client's books on ex-date.
- (d) In case of fixed income instruments, purchased/sold at Cum-interest rates, the interest component up to the date of purchase /sale is taken to interest receivable/payable account.

3. Books of accounts would be separately maintained in the name of the client as are necessary to account for the assets and any additions, income, receipts and disbursements in connection therewith as provided under SEBI (Portfolio Managers) Regulations, 2020.

4. **Audit**

- a. The Portfolio accounts of the Portfolio Manager shall be audited annually by an independent chartered accountant and a copy of the certificate issued by the chartered accountant shall be given to the client.
- b. The client may appoint a chartered accountant to audit the books and accounts of the Portfolio Manager relating to his transactions and the Portfolio Manager shall co-operate with such chartered accountant in course of the audit.

The Accounting Policies and Standards as outlined above are subject to changes made from time to time by Portfolio Manager. However, such changes would be in conformity with the Regulations.

14) Agreement:

- 1. The Portfolio Manager before taking up an assignment of management of funds or portfolio of securities on behalf of the client, enters into an agreement in writing with such client clearly defining the inter se relationship and setting out their mutual rights liabilities and obligations

- relating to the management of funds or portfolio of securities, containing such details as per the regulations.

21) Other Disclosures by Portfolio Manager:

- The Company has outsourced its fund accounting and custodial service.
- The Company may undertake proprietary investment in its independent capacity.

22) Anti-Money Laundering Compliances:

The Government of India has put a policy framework to combat money laundering through the Prevention of Money Laundering Act, 2002 (PMLA 2002). PMLA 2002 and the Rules notified there under (PMLA Rules) came into effect from July 1, 2005. Director, FIU-IND, and Director (Enforcement) have been conferred with exclusive and concurrent powers under relevant sections of the Act to implement the provisions of the Act. Consequently, SEBI has mandated that all registered intermediaries to formulate and implement a comprehensive policy framework on anti-money laundering and adopt 'Know Your Customer' (KYC) norms.

Further, SEBI vide Circular No. SEBI/HO/MIRSD/DOS3/CIR/P/2018/104 dated October 15, 2019 (which supersedes all the earlier circular) issued a **"Master Circular for Guidelines on Anti-Money Laundering (AML) Standards and Combating the Financing of Terrorism (CFT) /Obligations of Securities Market Intermediaries under the Prevention of Money Laundering Act, 2002 and Rules frame there under"** consolidating all the requirements/instructions/obligations of Securities Market Intermediaries.

Accordingly, the investors should ensure that the amount invested by them is through legitimate sources only and does not involve and are not designed for the purpose of any contravention or evasion of any Act, Rules, Regulations, Notifications or Directions of the provisions of Income Tax Act, Prevention of Money Laundering Act, Anti-Corruption Act and or any other applicable laws enacted by the Government of India from time to time. The Portfolio Manager is committed to complying with all applicable anti-money laundering laws and regulations in all of its operations. Accordingly, the Portfolio Manager reserves the right to reject or refund or freeze the account of

The Portfolio Manager shall not be held liable in any manner for any claims arising whatsoever on account of freezing the account/rejection or refund of the application etc. due to non-compliance with the provisions of any of the aforesaid Regulations or Applicable Laws.

Investors are requested to note that KYC is mandatory for all investors. SEBI vide circular no. MIRSD/SE/Cir-21/2011 dated October 5, 2011, and CIR/MIRSD/ 11/2012 dated September 5, 2012, has mandated that the uniform KYC form and supporting documents shall be used by all SEBI registered intermediaries in respect of all new clients from January 1, 2012. Further, SEBI vide circular no. MIRSD/Cir-23/2011 dated December 2, 2011, has developed a mechanism for centralization of the KYC records in the securities market to bring about uniformity in securities markets.

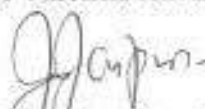

Accordingly, KYC registration is being centralized through KYC Registration Agencies (KRA) registered with SEBI. Thus, each investor has to undergo a uniform KYC process only once in the securities market and the details would be shared with other intermediaries by the KRA. Applications shall be liable to be rejected if the investors do not comply with the aforesaid KYC requirements.

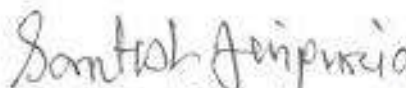

As per the 2015 amendment to PML (Maintenance of Records) Rules, 2005 (the rules), every reporting entity shall capture the KYC information for sharing with the Central KYC Records Registry in the manner mentioned in the Rules, as per the KYC template for 'Individuals' finalized by CERSAI. Accordingly, the KYC template finalized by CERSAI shall be used by the registered intermediaries as Part I of AOF for individuals.

23) General:

The portfolio manager and the client can mutually agree to be bound by specific terms through a written two-way agreement between themselves in addition to the standard agreement.
